

SPF Precut Lumber

Pacific Prince Investments Inc. was founded in 1990 by the husband-and-wife team of Mr. Muhammad Amir and the late Ms. Shaheen Zafar in North Vancouver, BC. Under its trade name, SPF Precut Lumber, the company evolved into one of Western Canada's largest exporters of pallet stock and Canadian dimension lumber to the US, Middle East, Far East, Southeast Asia and Europe.

customer-centric approach in creating new markets for Canadian softwood, where European wood products were dominant. In part, SPF Precut Lumber accomplishes this by remanufacturing standard dimensional sizes to metric sizes, thus offering items that are not produced by Canadian primary mills.

Currently exporting 155-million board feet annually to more than 15 different countries, SPF Precut Lumber stocks more than 12-million board feet of lumber and has five-million board feet on order at any given time between its two reload facilities in Delta, BC and Surrey, BC. In industrial-, construction- and furniture-grades, SPF Precut Lumber exports a variety of species: SPF (spruce-pine-fir), Hem-Fir, Douglas-Fir and Ponderosa Pine. SPF Precut

Lumber provides its customers with greater access to supply, competitive pricing, shorter delivery periods and superior specialty wood products custom-remanufactured to its customers' end-use.

With such a widespread global presence, SPF Precut Lumber has a reputation for its on-time delivery of on-grade lumber at competitive prices to the highest levels of customer satisfaction.
